Position: Marketing and Sales Associate **Full-time/Regular and Part-time**

Location: Pontiac, Michigan (Metro-Detroit)

Euro-Peds, a nationally-recognized intensive pediatric physical therapy center treating patients with gross motor disorders including cerebral palsy, traumatic brain injury, spina bifida and a variety of syndromes, recently expanded its services to include the treatment of adults with orthopedic and neurological impairments. Additionally, speech therapy is now part of the growing center's services for both adults and children.

Job Description:

Euro-Peds is actively seeking a Marketing and Sales Associate to promote the center's new adult physical therapy and speech therapy programs along with the organization's already established intensive pediatric physical therapy program.

This position will work closely with the Director to develop and execute specific strategies to achieve increased referrals and profitability.

Preferred Qualifications:

- The ideal candidate will have experience in the therapy/rehab field and established relationships with physicians and case managers in the Metro Detroit, Michigan area.
- Bachelors of Science Degree in Marketing, Communications, Health or other related field.

Required Skills:

- Excellent written and verbal communication abilities needed to interact with physicians, office staff, hospital administrators, case managers and discharge planners.
- Strong initiative, motivation, passion and persistence - Able to make sales appointments with existing contacts and establish new business leads
- Computer proficient using Microsoft Programs for ongoing communications and data entry and reporting.

- Must have valid driver's license and transportation for meeting clients.

Contact/Position Type

Send your resume to michelle@euro-peds.org. Euro-Peds will review resumes for full-time and part-time work. Please state employment interests when applying.

About the Company

Euro-Pēds® National Center for Intensive Physical Therapy helps children and adults with cerebral palsy, traumatic brain injury, spina bifida and a variety of other gross motor disorders learn new skills to improve mobility, self-esteem and independence through intensive physical therapy. Therapists work one-on-one with patients in on-site therapy sessions ranging 1 to 4 hours a day, 2 to 5 days per week.

In late 2017, the company expanded its emerging physical therapy practice to also include orthopedic and neurological adult therapy programs along with speech therapy services for both adults and children.
