

Position: Physical Therapy Aide (PT Aide)
Part-time and Contingent Openings

## **Job Description**

Physical Therapy Aides help the Physical Therapists and Physical Therapy Assistants with hands-on assistance and patient motivation during patient treatment at the center. Aides also help to maintain the center by disinfecting equipment, stocking rooms, organizing storage, etc. Light office duties are performed occasionally.

# **Required Skills**

Minimum requirement includes a high school diploma. **MUST be energetic, out-going, and creative to succeed in this dynamic entry-level position.** It is strongly recommended for applicant to have previous experience working with children and/or those having disabilities. Possesses professional communication skills. Works well with others. Strong work ethic.

#### **Other**

Known throughout the U.S. and beyond, Euro-Peds' intensive physical therapy program treats both local and out-of-state patients. On-the-job training will be provided upon hire.

## **Contact/Position Type**

Send resumes to <u>michelle@euro-peds.org</u>. Also hiring PTs and PTAs. Will review resumes for part-time and contingent work. Please state employment interests when applying.

### **About the Company**

Euro-Pēds® National Center for Intensive Pediatric Physical Therapy helps children and young adults with cerebral palsy, traumatic brain injury, spina bifida and a variety of other gross motor disorders learn new skills to improve mobility, self-esteem and independence through intensive physical therapy. Therapists work one-on-one with patients in on-site therapy sessions ranging 1.5 to 4 hours a day and develop home exercise programs as both primary treatment and to complement traditional therapy with other medical providers for continued progress.

Located in Pontiac, Michigan, the Center opened as North America's first intensive pediatric physical therapy center in 1999 for families throughout the U.S. and beyond seeking a regimen of intensive rehabilitation techniques first pioneered in Eastern Europe, including use of the Universal Exercise Unit and optional suit therapy to optimize motor training and significantly improve motor skills. For more information, visit www.EuroPeds.org.

It is the policy of Euro-Pēds® National Center for Intensive Pediatric PT to attract and retain the best qualified individuals available, without regard to race/ethnicity, color, religion, national origin, age, gender, sexual orientation, disability, veteran status or any other lawfully protected status.
